## FIT GUIDE: SHOES

**SHOES: Shoes run generous**, both in width and length. It is typical that you may wear one half-size smaller than your normal "street shoe" size. **New Strobel Construction.** Newer styles are true to size and have Strobel construction for a lightweight, comfortable and slipper-like feel. It is also important to know that our golf shoes are designed for no sock to be worn. Shoes are fully lined with a soft, moisture-wicking microfiber sock lining so that they are comfortable against your bare feet.

### Washable sock liners

Since Sandbaggers shoes are fully lined with a soft, microfiber material, many of our loyal customers choose to wear no sock at all. To maintain shoe freshness, sock liners in shoes (not sandals) may be removed and washed by hand. Please use a gentle detergent and allow your liner to air dry.

**MOST STYLES HAVE:** Built-in Orthotics. Improve balance. Reduce foot fatigue. (All shoes that are not Strobel Construction)
